Introduction

Personal - Picturesque - Perfection

Ross Holding Photography offers a service designed to capture creative modern images that you will treasure forever. Our images always tell a story.

You don't pay VAT on top of any of our prices and no hidden charges. All our packages can be custom made to your needs or you can just create your own package.

About Ross Holding Photography

We are a family run business with over 40 years experience.

Ross Holding has been running the business for the last 20 years and we can guarantee you that all our samples are our own and not from stock library's as we have found some new photographers get their samples from to start off their business.

We have reliable customer service and are reachable 7 days a week from 9am untill 9pm.

Our approach to wedding photography is simple - to take images in a fun, friendly and unobtrusive manor. We will work with you to an agreed agenda, which typically involves taking a mixture of reportage and creatively posed shots. We will also take as many or as little group shots as you require.

Remember

After your wedding, what do you really have left?

- **The dress gets put up in the loft**
- **The food gets eaten**
- **The drink gets drunk**
- **The only real lasting tangible memories for years to come are your photos!**

Reportage

This is a modern and relaxed style of photography. Our reportage photographer works in the background alongside main photographer, capturing the fun and unexpected moments of your day as they happen.

Also ideal for you or your guests that feel uneasy in front of a camera.

Story Books

The Contemporary albums bring the best of both worlds together – freedom of design and quality of presentation. These newly designed albums offer a modern cover style for today's digitally produced images.
